# Warranty and Repair Procedures

## Government Service Program

Every Advantor Systems manufactured product is subjected to stringent quality processes designed to insure dependable performance, reliability and customer satisfaction. When service is necessary, please follow the following procedures:

### Procedure for Warranty Replacement

1. Telephone our Advantor Answer Center at 1-800-327-4007 to discuss the nature of the problem. Many times it may simply be improper operation or use of equipment which can be resolved with a brief telephone conversation. If all procedures are correct and equipment still does not operate the Answer Center will determine the proper steps for resolution.
2. If it is determined that factory service is required, re-pack item securely in original factory carton or satisfactory carton with original anti-static protection. Obtain an RA number from Answer Center technician. Only those manufactured products listed on the attached Repair Schedule are supported for warranty and repair.
3. Enclose a brief note describing problem or failure along with date of purchase and serial number. Include name and telephone number of person to be contacted should additional information be required. The RA# should be written on the note. Address must be manned during business hours for carrier to deliver.
4. Indicate full name and address for equipment return on packing slip and any other information required by your government facility.
5. Ship item via freight pre-paid, insured for the value of the item, to the following address:  
Advantor Systems Corporation  
Attn: Shipping and Receiving  
12612 Challenger Pkwy, Ste 300  
Orlando, FL 32826
6. The item will be given the highest priority repair attention and returned to the addressee via surface freight prepaid.
