## WARRANTY REPAIR PROCEDURE

Every Advantor Systems manufactured product is subjected to stringent quality processes designed to ensure dependable performance, reliability, and customer satisfaction. When service is necessary, please utilize the following procedures:

1. Contact Advantor Technical Support Center at 800-327-4007 to discuss the nature of the problem with an Advantor technician. Many times it may simply be improper operation or use of equipment which can be resolved with a brief telephone conversation.
2. If it is determined that factory service is required, the Advantor technician will provide a Return Material Authorization (RMA) number. Complete the attached Return Material Authorization (RMA) Form for each item being returned and enclose a copy in the package.
3. Re-pack the product securely in original factory carton or satisfactory carton with anti-static protection that will adequately protect the contents from damage, deterioration, or contamination during shipping. Avoid using packing peanuts that may break and contaminate products such as computers and other sensitive electronic assemblies. **Advantor Systems is not responsible for products that are lost or damaged during transport to Advantor Systems.**
4. If the original factory carton is not available, securely wrap computers in at least 3 to 4 inches of plastic bubble wrap. Insert the wrapped computer tower inside a sturdy, cardboard box. Choose a box slightly larger than the computer to eliminate large areas of open space. Place the computer upright and fill all remaining space with additional cushioning such as plastic bubble wrap or foam so that the computer fits securely and will not shift during transit. Pack computer monitors and accessories in the same manner as the computer tower, using appropriately-sized boxes. Place the packed computer boxes inside one large exterior box. Fill all open spaces with cushioning or foam to ensure a tight fit. Close and seal the exterior box securely with packing tape. Use at least 3 strips of pressure-sensitive tape to ensure a tight seal.
5. Ship materials via freight pre-paid, insured for the value of the item, using the carrier of your choice to the following address. Advantor suggests using a method with ability to track the shipment. Shipments sent via freight collect will not be accepted without prior authorization from Advantor Systems.

Advantor Systems Corporation  
ATTN: RMA # \_\_\_\_\_

FURTHERMORE, THIS CLAUSE SHALL NOT IMPAIR NOR PREJUDICE THE U.S. GOVERNMENT'S RIGHT TO EXPRESS REMEDIES IN THE GSA SCHEDULE CONTRACT (E.G., CLAUSE 552.238-75 – PRICE REDUCTIONS, CLAUSE 52.212-4(H) PATENT INDEMNIFICATION, AND GSAR 552.215-72 – PRICE ADJUSTMENT – FAILURE TO PROVIDE ACCURATE INFORMATION).
