### REASON FOR DISCONTINUATION

As part of Advantor Systems product lifecycle, this product line is being discontinued and replaced by the **ADVANTOR VIDEO MANAGEMENT SYSTEM (VMS) 3.9**. The new platform delivers enhanced functionality, strengthened cybersecurity, greater scalability, and advanced capabilities designed to support evolving security requirements and future operational needs.

### WHAT THIS MEANS FOR YOU

To ensure you continue receiving the full benefits of your Advantor VMS system, we recommend upgrading to the latest **ADVANTOR VIDEO MANAGEMENT SYSTEM (VMS) 3.9** platform. This next-generation solution provides expanded capabilities and seamless integration with your existing security infrastructure, helping you maximize the value of your security investment. Please contact us to discuss available upgrade options, develop a transition plan, and learn how ADVANTOR VIDEO MANAGEMENT SYSTEM (VMS) 3.9 can further strengthen your security operations.
